

How do I issue a refund from the balance in my business checking account?

Step 1: Log into your Cashbox Account in the upper right-hand corner.

Step 2: From the Payments Tab, select the option "Send Check 22"

Step 3: (For Verified Checking Accounts ONLY) (See Note Below)

Enter the Payee Name, Check Amount, Check # and any Memo you need. Select Continue.

Note: *If this is your first-time using Check 22 Payments you will need to verify your checking account before continuing. Click on this link to verify your banking information.*

Send Check22

What is Check22

Check 21 is a United States federal law, that was enacted on October 28, 2003 allowing the recipient of the original paper check to create a digital version of the original check, into an electronic format called a "substitute check". Check22, developed by Genie Gateway, is the next step, changing this process from a "Debit" (grab) transaction to a "Push" transaction where each payer can decide when and how much they wish to pay.

Send a Check22 Payment

Check22 payments can be sent via email, right away, to anyone you want, whenever you want. The Check22 program will create a "substitute check", electronically, which will be charged to the checking account at the bank you provided. If this is the first time you are using Check22, you will have to provide your [Checking Account](#) information as part of this transaction. To send a Check22, please complete the information below:

Payee name:

Check Amount: \$

Check Number:

Memo:

[Continue](#)

Step 4: Enter the email address where you want to send the check and press the Email Button

Test-Account-Merchant **\$7.48**

Send Check22

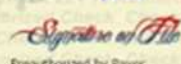

Please review your check before taking the next step. To avoid NSF Fees, and other bank charges, please make sure that you have sufficient funds in your checking account to cover this check.

Enter the E-Mail address where to send your check.
E-Mail:
Leave blank to send to your E-Mail address on file.

See Confirmation that text message has been sent to your cell phone/email on file with the business account. You must reply to the text message in order to complete the check being sent by email to the recipient. This is a security feature of the transaction because you are writing and sending a check that will post to your Business Account.
